Play in our Rack'Em Up Poker™ Tournament

Do you have two minutes to spare during G2E?
Want to test run the latest video poker game,
Rack 'Em Up Poker™?
Would you like to win a new iPad Air™?

Stop by the IGT booth and visit Video Poker, where you can play Rack'Em Up Poker™ for a chance to win an iPad Air™ with Wi-Fi + Cellular 128GB!

You are invited to participate in the new [MyBlue](#) program, your key to a customized G2E. It grants you access to play in the Tournament, other private opportunities and content during the show and lets you control the product information you receive afterwards.

During the hour-long tournament cycle, each player has 2 minutes of play to achieve the highest score possible. At the end of the hour, IGT Video Poker will give away an iPad Air™ with Wi-Fi + Cellular to the highest score for that hour. Players will be limited to one entry per hour and only one iPad Air™ will be given per person.

Tournament schedule:

Tuesday, Sept. 30th and Wednesday, Oct. 1st:

- 11:30am to 12:25pm
- 12:30pm to 1:25pm
- 1:30pm to 2:25pm
- 2:30pm to 3:25pm

Thursday, Oct 2nd:

- 10:30am to 11:25am
- 11:30am to 12:25pm
- 12:30pm to 1:25pm

Was Lady Luck not on your side during tournament play? "Last Chance" drawing will be held after the last tournament on Thursday for all the players who didn't win. Drawing to be held at 2pm on Thursday, October 2nd.

Best of Luck!!

Stop by and pick up your MyBlue card at the welcome desk before you head into the booth to ensure you get to play in the tournament.

The AVP® Advantage

By Jacob Lanning

For years, IGT has provided the best video poker products for players and operators. Some so good in fact that it seems like there is never a reason to replace them. Our 80960 platform is a great example of one of those amazing products that both players and operators just love.

Our development team has been thinking long and hard about how we can make our poker products even better for players and operators. With our AVP® platform, we are delivering some amazing new features that improve reliability and performance. On the hardware side, our G20 Uprights, G20 Bartops and Universal Slants are built with poker players in mind, ensuring the best possible experience.

At this year's G2E, we will show you many of those innovative features and new products that give you a real ROI in replacing those older 80960. From marketing features like Tournament Manager, to setup features like EZ Set-up and Package Installer, ease of operation features like Game Group Accounting, and player focused features like Game Launcher and our brand new product lineup, AVP® is proving itself to be even more valuable in the poker market.

With Tournament Manager, your Video Poker product does double duty in driving revenue. Not only can you run the latest version of Game King® with all of the great games that players love, but you can also run a video poker tournament on the same games with ease. With real-time scoring and leaderboards, it keeps your players excited and in the game. Tournaments are easier to setup and run, keeping your labor focused on customer service and your machines focused on earning revenue. With great standard poker themes as well as player favorite Triple Play™, Five Play®, and Ten Play™ Poker versions, your poker tournaments are sure to be a hit on AVP®.

Ensuring the right configuration on a poker machine can be the difference between making a strong ROI and losing a player to the casino down the street. With EZ Set-up, we have made it so simple for operators to not get left behind. Not only do we allow you to set up just one game and then copy those settings to the rest of the machines in your casino, we also have created three different configurations (high, medium, and low) that ensure the menus are setup correctly and the paytables for the poker games are configured all the same. If you want more control over the settings, you can start with one of our recommended configurations and then customize from there. EZ Set-up is available on many of our new products, but is only available on AVP®.

Switching between games often takes the player out of the game longer than they expect. With Game Launcher, players can now switch between games faster than ever. This will keep them in the game, ready to play. This AVP® feature will make your bundled products like Game King® 8.3 and All-Star Poker® III even more valuable than ever.

Seeing a slot tech with a dozen or more poker dongles has always been a frustrating sight. You can never be sure that they installed all of the right packages on the machine the first time to get your configuration right. Our development team has solved that problem with the creation of the Package Installer (PI). The PI will install all

of the right paytables and great features like EZ Set-up, Game Launcher, and Game Group Accounting with a single dongle. You will no longer need to worry that you won't have something you need on the cabinet.

Game Group Accounting makes it easy to see what games players love and those that players just haven't found yet.

In this issue, players will just love All-Star Poker® III, Game King® 8.3, Super Times Pay® Mega Progressive, Triple Play™ Five Play® and Ten Play™ Poker and Hot Roll® Poker and many others.

We would love to see you at G2E this year to demonstrate all of these great products. If you can't make it, don't worry, just reach out to your account manager or SME and we will make sure you can take advantage of all of our great AVP® products.

Watch the IGT Channel Blue webcast, *Grow Your Video Poker Revenue* at igt.com/webinars.

G2E Line-up

The best. Hands-down.

Continuing with a legacy of success in the video poker space, IGT continues to provide the games that your players love. Evolved game play keeps loyal players interested, while attracting and retaining a new generation of poker fans that will help move poker play forward. You could say this is the best deal around.

All-Star Poker® III

Benefits and Features

- Strong brand recognition and appeal
- All-Star Poker® III allows for a strong product mix and will become a “must have” among proven video poker performers
- The All-Star Poker® III game set will help migrate classic fans from the 80960 platform to AVP® with ease
- Evolution of All-Star Poker® II with the addition of our top performing games:
 - Spin Poker Deluxe™, Crazy Times Pay Poker®, Hyper Bonus Poker®, Multi-Streak Poker®, Ultimate Aces Poker®

Game King® 8.3

Benefits and Features

- Configuration Manager, together with EZ Set-up enables operators to configure games in mere minutes, not hours. Load your configuration to a thumb drive and copy the setup from game to game.
- Game Launcher offers rapid game load of any game selected within the Game King® bundle, decreasing game down time
- Two Step auto play feature now available on Keno and Slots to stop players from accidentally starting games
- 21 titles including 3 new games
- Additional new international paytables with Players Edge

Operator-favorite Characteristics

- Includes all themes in Game King® 8.2 (75 poker titles, 21 keno themes, blackjack and 10 slot themes) plus themes from Game King® 6.4
- Proven performers and new themes fuse together with the strongest and largest library of Video Poker titles in history
- Top box progressive capabilities come standard for stand-alone applications
- New paytables added for the international market

Game Star™ Video Poker

Benefits and Features

- Brand new bundled theme that incorporates 6 new single hand poker games and a multi-hand Stud Poker theme.
- Game Star™ includes:
 - **Extreme X Poker™** – With max bet, a full house or better awards fever games where the player has a multiplier option
 - **Look Ahead Poker** – Players can play max bet to view the next card in the deck. Players cannot choose to burn the card on the draw
 - **Super Look Ahead Poker** – Similar to Look Ahead Poker except players can keep or burn the next card in the deck after the deal
 - **Stud Choice Poker** – Players select one of two hands, and then choose a 5-card, 6-card or 7-card pay table. After a pay table is selected, remaining cards are used to complete the 5-card, 6-card, or 7-card stud hand
 - **Flush Fever® Poker** – With max bet in this single hand game, an auto redraw is initiated when a four to a flush is achieved. In the bonus, the game auto draws until the resulting hand is a win
 - **Lucky Quads Wheel Poker™** – A wheel spin is awarded for any 4-of-a-kind, 5-of-a-kind with one deuce, or four deuces
 - **Dual Action Poker™** – Single hand poker where the player selects a combination of two pay tables. Wins are awarded against both tables

- Operator-configurable minimum bet

Universal Slant Poker Cabinet

The Universal Slant development and design was influenced by extensive research, operator feedback and a lot of testing. For those of you that remember or currently have the GK 19" slant top, the similarities of the U-Slant are beneficial to the seasoned poker player.

The button deck sits close to the same height as the GK19 so players can comfortably fit their knees. In addition, the button placement also allows for a generous resting area for the players hands. Finally, we have developed a dynamic button panel to resemble the GK19 button placement and thrush. When tested against static buttons, the players actually like the dynamic better!

As you know, poker players are very resistant to change and we feel the Universal Slant has addressed those concerns. But, even better than the GK19, the measurements screen sits almost upright and does not get glare or reflections from ceiling lights. The Universal Slant is a more private gaming experience without feeling secluded.

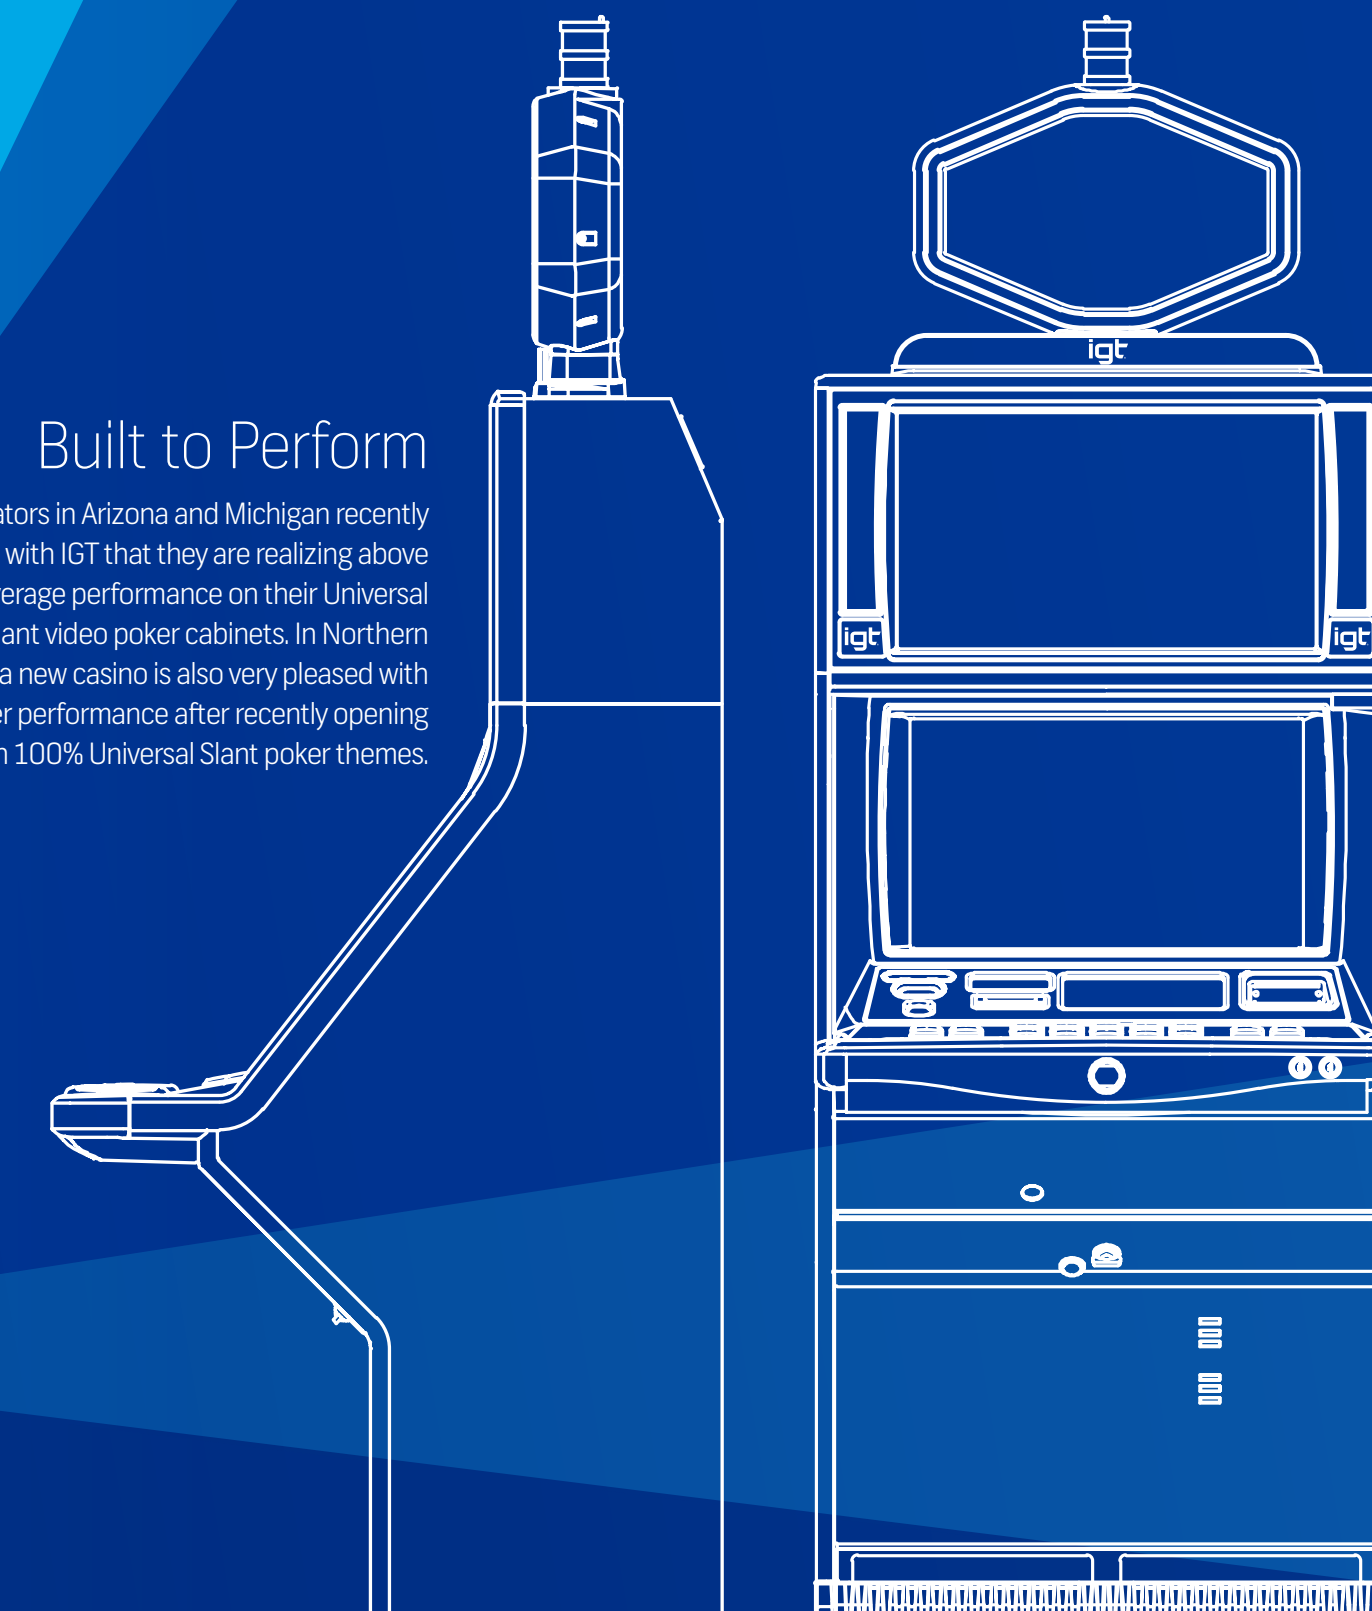

As the most comfortable video poker experience to date, players will indulge their senses with the expanded personal space, superior ergonomics and larger screen that the Universal Slant Video Poker cabinet offers. Transition your 80960 players from the

platform they know and love to a new and improved (yet familiar) poker playing experience! sbX® ready, preparing your poker player and casino for the future.

"We have proven to operators that players will play video poker games on the IGT AVP® cabinet by successfully testing them at a number of Southern California locations. The testing and lift in performance has given our customers confidence when converting their aging and obsolete hardware to AVP®."

Danny Malaty

Account Manager | CA Sales | International Game Technology

Built to Perform

Operators in Arizona and Michigan recently shared with IGT that they are realizing above zone average performance on their Universal Slant video poker cabinets. In Northern California, a new casino is also very pleased with video poker performance after recently opening with 100% Universal Slant poker themes.
